**SKINCARE TECHNOLOGY**

**Kiwi & Cactus Water:** Kiwi Extract is an excellent source of antioxidants, including Vitamin C and amino acids, that can help neutralize harmful free radicals and improve skin barrier function. Cactus Extract helps store and retain moisture to the skin, while soothing and providing electrolytes for ultra-hydrated skin and longer lasting color results.

**Microbiome Balancer:** Skin contains a diverse selection of microorganisms that live in and on the skin's layers called microbiome, these include good and bad bacteria that works like an ecosystem, with living components, that determine the health of a habitat. Disruption in the balance of the good and bad causes skin disorders and imperfections. This special formulation works to create a harmonious skin microbiome that helps to nurture and provide nutrition to promote desired microorganisms with a blend of supporting enzymes and amino acids. It also helps to prevent the growth of new harmful microorganisms. By improving the harmony and balance of the microbiome, skin is left with a healthy-looking and more radiant appearance.

**Hydrating Complex:** Pure Hemp Seed Oil is blended with Moisture Melt and Silicone to allow for easy spreadability and fast absorption, while helping to strengthen skin and help to prevent water loss by forming a hydrating barrier to the skin for longer lasting moisturization.

**HydraRich™ Blend:** Powerful combination of Jojoba, Shea Butter, and Glycerin that all have excellent conditioning properties that also protect and attract water to the skin to keep it hydrated longer.

**Age Defying Blend:** Super fusion of Vitamin A, that protects against external aggressors; Vitamin B3, known to balance uneven skin tone; Vitamin E, that helps protect skin from harmful environmental pollutants; and Soft Focus Microspheres that are small particles that impart a silky texture to the lotion and provide skin blurring effects that help diminish the appearance of fine lines and wrinkles.
